

AMENDMENTS TO THE SPECIFICATION

Please delete the present Abstract of the Disclosure.

Please add the following new Abstract of the Disclosure:

An information processing terminal system includes an information processing terminal (6); and is attached to a transmitting and receiving unit (5) which is attached to the information processing terminal. The transmitting and receiving unit (5) which converts a reception wave signal from a network into a reception analog baseband signal. ~~The transmitting and receiving unit (5) and~~ converts the reception analog baseband signal into a reception digital baseband signal in synchronization with a clock. The information processing terminal (6) converts the reception digital baseband signal into ~~[[a]]~~ reception data in synchronization with a clock, and ~~[[a]]~~ transmission data into a transmission digital baseband signal in synchronization with the clock. The transmitting and receiving unit (5) converts the transmission digital baseband signal into a transmission analog baseband signal in synchronization with the clock. ~~The transmitting and receiving unit (5) and~~ converts the transmission analog baseband signal into a transmission modulation wave signal to output to the network.
